

Dräger X-plore 9x00 and PAS X-plore Airline System

The Dräger X-plore 9x00 series is designed for light-duty industrial applications and provides comfortable and reliable respiratory protection. Thanks to such features as the unique safe-flow reducer and auto-test function, wearers can enjoy more operating convenience, safety and flexibility.

Dräger

Technology for Life

Dräger X-plore 9x00 and PAS X-plore

Range comes with Safe-flow and Auto-test
Ensures correct airflow – no need for pre-testing by user

Protected flow adjust mechanism
Provides additional airflow to the wearer for improved comfort

Simple and easy connection
Compatible to standard Dräger professional facemasks or X-plore 8000 headpieces

Approved for the latest versions
EN14594 or EN14593 (WWU as standard)

Benefits

Always delivers the right amount of air

The X-plore 9300 and 9500 devices cover an input pressure range of 3 – 10 bar, whereas the PAS X-plore has a range of 5 – 10 bar. Both models in the X-plore 9000 series come with the unique safe-flow pressure reducer and auto-test feature, which makes time-consuming pre-testing unnecessary. This special feature provides a continuous and sufficient amount of air to the wearer even if the external air supply pressure changes.

Additionally, these belt units include a protected flow-adjust to increase the airflow for added wearer comfort. For even more safety, a whistle warning unit sounds in case of insufficient air supply.

Full compatibility for more selection

Like the Dräger X-plore 8000 unit, the Dräger X-plore 9300 range is compatible with a wide variety of headpieces and air hoses. These include constant flow long and short hoods, helmets, protective and welding visors. This means you have more choice and can use the X-plore 9300 range with different headpieces according to your job and particular user preference.

The PAS X-plore devices are suitable for use with all Dräger lung demand valve facemask combinations as seen in the Dräger professional SCBA portfolio.

The X-plore 9500 is compatible with all Dräger full-face masks (normal pressure, Rd40 connector types).

Special features such as different waist belt options for welding and decontamination can be specified.

Rugged, robust and simple to use

No matter which model you choose, you can count on a design that is built to handle even the toughest of jobs. Their user-friendly features such as the auto-test function mean that they require minimal training and are immediately ready for deployment. All versions are type tested as suitable for use in potentially explosive atmospheres.

Cost effective maintenance

All models are simple regarding maintenance, easy to clean and have low cost replacement parts for heavily contaminated components. This not only saves time but money in that one does not require special cleaning.

System Components

D-12004-2024

Dräger X-plore 8000 Hoods

The Dräger X-plore 8000 hoods are essential components for the X-plore 8000 powered air-purifying respirators for ambient air applications and are also compatible with the Dräger X-plore 9300 airline device for independent air supply applications. The hoods are available in various lengths and offer light and comfortable protection with the highest safety level for open headpieces.

D-3434-2023

Dräger X-plore 8000 Face Shield

The Dräger X-plore 8000 face shield provides effective protection for the eyes and entire face. As an integral part of the X-plore 8000 series, it is compatible with X-plore 8000 powered air purifying respirators and the X-plore 9300 airline device.

System Components

D-9105-2023

Dräger X-plore 8000 Helmets

Helmet options in the Dräger X-plore 8000 series provide combined head and respiratory protection with high comfort. Different lengths and materials for the neck seal allow quick and easy adaptation to specific applications. These helmets are compatible with all powered air-purifying respirators in the Dräger X-plore 8000 series and the Dräger X-plore 9300 airline device.

D-9134-2023_D-9119-2023

Dräger X-plore 8000 Welding Visors

Dräger X-plore 8000 Welding Visors offer reliable protection for the eyes and face. Regardless of whether you are dependent on ambient air or working independently, the welding visors are an integral part of our X-plore 8000 powered air-purifying respirator system and X-plore 9300 compressed air line device.

D-15897-2024

Dräger X-plore 8000 Head Pieces with Hood

The Dräger X-plore 8000 helmet/bump cap and hood combination provides reliable protection in heavily polluted or contaminated environments. The combination of head protection and hood is an integral part of our Dräger X-plore 8000 powered air-purifying respirator systems and our Dräger X-plore 9300 compressed air line device.

D-2241-2024

Dräger X-plore 6300

The Dräger X-plore 6300 is the efficient yet low-cost full face mask intended for price-conscious users not wishing to compromise on comfort or quality. This full face mask is the successor to the Panorama Nova Standard, a mask which has proven itself over decades of use worldwide – redesigned and improved with fresh colours and an integrated barcode.

System Components

D-4986-2024

Dräger FPS 7000

The Dräger FPS 7000 full-face mask series sets new standards in terms of safety and wearing comfort. Thanks to its enhanced ergonomics and the availability of multiple sizes, it offers a large, optimized field of vision and a very comfortable, secure fit.

D-13629-2010

Dräger Panorama Nova

The Dräger Panorama Nova full face mask meets the highest standards of protection, sealing and quality. For decades proven worldwide, the full face mask represents absolute reliability in the protection of the respiratory tract and eyes.
